

## Clark Forklift Attachments

Clark Forklift Attachments - Performing worldwide, there are at this time 350,000 Clark forklifts and lift trucks in operation, with upwards of 250,000 of those in use in North America. Clark has five major lines of lift trucks across the world, making it one of the most expansive corporations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gas, LPG, hand-driven trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift, handles more than 120,000 specific parts intended for 20 exclusive designs of lift trucks and automated equipment. Your local Clark Dealer is your total source for availability of all your components needs supplied by Clark Totalift.

Clark's exceptional Parts Distribution Stores are conveniently stationed in Louisville, Kentucky, which serves both their clients and sellers in North America, and Changwon, South Korea, which handles their Asian sellers and customers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing producers. Driven to supply the highest level of value and service to our clients, Clark remains on the cutting edge when it comes to improving efficiency and benefiting performance.

Clark Totalift has a very impressive intercontinental support network. With over 550 locations globally, supplier representation in over 80 nations and 230 locations in North America, their high level of commitment to their customers predominates the materials handling market.

Clark proudly remains an progressive leader of the material handling industry, revolutionizing safety features such as the operator restraint system. This exceptional commitment to safety is at this time a standard feature on every forklift.

Clark's relentless effort to have the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first lift truck manufacturer across the globe to be certified with the internationally approved quality standard ISO 9001 for all of their production plants. Also, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be ready for any number of environmental limitations, thus placing them in a dominant market position.

Clark has chosen the structure of "Lean Manufacturing" at all of its assembly facilities because this method is extremely economical and permits minimal use of resources. Developed to ensure maximum proficiency, this system is designed to discover and acknowledge the most effective ways for production plant management. Clark has completed this transition of its Korean facility. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and production efficiencies.

Clark's product engineers and suppliers communicate together to improve the efficiency and excellence of their products while minimizing expenses. The contemporary value engineering agenda combines modern product growth and offers improved client support and service within the industry.
