

Concrete Hopper

Concrete Hopper - The self-dumping hopper attachment could automatically start to both unload and release as the bumper release touches the side of a dumpster. Once dumping is done, the hopper can go back to original locked and upright position. This piece of equipment is likewise available along with a cable which enables operation from the seat of the forklift so as to have the alternative of manually dumping the hopper. There is a locking chain provided to be able to secure the hopper to the tire truck. This product is constructed with reliable and consistent robotic welds for utmost strength. The forklift dumping hopper also has a blue powder coat finish in order to maintain durability.
