

TCM Forklift Part

TCM Forklift Parts - In the global industry of material handling, lift trucks play a major part for transporting industrial goods. Initially innovated as industrial vehicles in the 1930s in the United States of America, lift trucks gained recognition after WWII in the 1940s. Becoming a reliable and efficient means to material handling solutions, the practicality and need of these machines spread worldwide.

First started as Toyo Carrier Manufacturing Company Limited, in 1949, the business was later renamed Toyo Umpanki Co. prior to becoming known as the TCM Corporation. Founded by Mr. N. Niwa manufactured Japan's first forklift. Over the years, TCM forklifts have become an international leader in forklift manufacturing and have built a solid reputation with the business. TCM began constructing forklift manufacturing locations outside of Japan during the 1980s and is presently engaged in lift truck manufacturer at three foreign factories in Europe, China and the United States.

TCM proudly manufactures several models of industrial forklifts with more than 50 years of accumulated technology and expertise, making their products used and recognized all around the globe. Characterized by energetic staff and strong initiatives, TCM continues to look toward the future and intends to become a world-class leading company.
