

## Barrel Clamp

Barrel Clamps - Known as "Barrel Clamp", this hydraulic attachment is used on lift trucks so as to squeeze items which you want to move using the lift truck. Usually, they're utilized in order to paper rolls, barrels, and handle kegs, together with some barrel clamp designs having the ability to revolve the load. Like for instance, the revolving function permits the one operating the forklift to be able to insert a vertically stored paper inside the horizontal intake of a printing press.
